## C4085 Ford Escort Mark I Daytona 1972 #24 (UK)

The Ford Escort MK1 is an icon of touring car racing worldwide. The car saw success in the UK BTCC, across Europe and as far away as Australia. It also raced in the US in 1972 by Brit John Fitzpatrick and American John Buffum. The car was outperformed around the oval circuit by the prototypes also entered, but in its class the little Escort performed well until being eliminated by a differential problem.
