C4153 Ford Capri Mk3 Greater Manchester Police (UK)

The British Police of the 1980s needed quick cars to catch faster criminals, they also had the use of sporty coupes, such as this 3 litre Capri. Known for going sideways this Capri will be perfect to slide round your Scalextric layout while you scream 'You're nicked!'. Another fantastic new moulding for 2020. Ford Motors Company Trademarks and Trade Dress used under license.
