C4173 Ford Mustang GT4 #15 British GT (USA)

The Mustang GT4 was new to the British GT race track in 2019, finishing second in the driver's championship. As a new moulding, the Scalextric model is eagerly awaited by not just Ford fans and will make a huge impact! Presented with high detail, it will have xenon effect headlights and working rear lights. No doubt it will be popular with custom building V8 Supercars fans!
